President Madero is quoted by "El Imparcial" as saying that, in his judgment, the note could not be considered as a "prelude of intervention," citing as foundation for the belief the repeated proofs received by Mexico of the friendship and consideran of the United States. The note, the President is said to have remarked, could be explained only as indicating a desire on the part of the United States to demonstrate to Americans a disposition to care for the interests and lives of its citizens in Mexico.

TAFT MAJORITY IN MISSOURI. Friends of the President are convinced from recent reports from Missouri that despite the fact that the entire force of Governor Hadley's machine is being exerted FIRST FLASH OF LIGHTNING' against the President, he will receive a majority of the delegates from that state. It is predicted by those in a position to know that the President will receive seventeen of Missouri's thirty-six delegates, which will be regarded as a remarkable achievement in view of the attitude of the Governor. DEMOCRATS UNINTERESTED.

The deplorable indifference of the Democrats to the welfare of the workingman was aptly illustrated to-day when they promptly "La Prensa" qualified the diplomatic ceserted the Senate Chamber as soon as Senator Sutherland began his discussion of the workmen's compensation act, which is urgently advocated by the President and by numerable labor organizations. Senator Sutherland is not one of the speakers who invariably empties the Senate. On the contrary, he is an interesting speaker and when crats take an interest they remain in considerable numbers, but they are wholly indifferent to this legislation, and, moreover, rather than permit the President to gain any possible credit for it, for which he is chiefly responsible, they are determined to postpone the great benefit which would inure to the workingman therefrom. Senator Sutherland brought out graphically the baneful effects of the negligence and contributory negligence rules of existing jurisprudence, declaring that in most instances such alleged negligence was not such at all, but merely one of the "hazards of the trade." Senator Lodge presented a num-ber of resolutions for Massachusetts labor organizations, urging favorable action on
