

FOREST RANGERS
ARE APPOINTED

Five New Mexico Boys Pass
Examinations and Are As-
signed Duty

MINING CO. FILES ARTICLES

Six Madrid Liquor Cases Heard
Before Commissioner Dun-
lavy To-day.

The following have been appointed forest rangers: Charles S. Shearer, Mineral Hill, San Miguel county; Leo R. York of Capitan, Lincoln county; Edwin H. Rushworth, of Bibo, Valencia county; Edwin A. Huggard, of Lower Penasco, Chaves county; D. G. Garrah of Venus, Santa Fe county.

National Guard Order.
Special Order No. 6 issued from the office of Adjutant General Brookes and signed by Governor W. C. McDonald orders First Lieutenant Chas. M. de Bromond, Light Battery A, New Mexico National Guard, from Roswell to Fort Sill, Oklahoma. The order is issued that Lieutenant de Bromond may participate in the joint encampment for a period of one month.

District Court.
A suit was filed this morning with the clerk of the district court by Dr. J. A. Rolls against Maximo Martinez for the recovery of \$76.50 for professional services. George Crowell of Rio Arriba county pleaded guilty this morning before Judge E. C. Abbott to an information charging forgery and was sentenced to serve not less than one year in the state penitentiary nor more than fifteen months.

Details of Mackey Killing.
The death of William Mackey near Moses, Union county, April 4th, thought to have been caused by the kick of a horse turns out to be a homicide. According to information furnished by Sheriff R. T. Mansker, of Clayton, to the mounted police, Earl Rayborn, 21 years old, confessed that he killed Mackey with a pipe wrench, in defense of Mrs. Rayborn, who is blind. Sheriff Mansker alleges that Rayborn said that he killed Mackey to the horses after the deed had been committed. Rayborn is held in \$5,000 bond which has not been furnished.

Mining Company Incorporates.
The Precious Metals Exploration Company of Silver City, Grant county, this morning filed articles of incorporation with the state corporation commission. The new concern will engage in a general prospecting and mining business. The capital is placed at \$500,000 divided into 500,000 shares, \$1.00 of the capital will be paid in before the company begins business. The names of the incorporators, their post office addresses and the number of shares subscribed by each follows: J. L. Burnside, Silver City, 2,000 shares; R. P. Barnes, Silver City, 5 shares and C. C. Royall, Silver City, 5 shares. R. P. Barnes is named statutory agent.

The Federal Jobs.
Word has been received from Senators Thomas B. Catron and Albert B. Fall that no luckwarran Republican need apply for the federal vacancies; that the recommendations of the Republican organization are necessary for appointment and that without such endorsement, the applicant would have a difficult time reaching his ambition and it certainly would not be with the consent of New Mexico's two Senators.

Liquor Cases.
Deputy United States Marshall John P. Cole, of Albuquerque, arrived in Santa Fe last evening with six prisoners from Madrid charged with selling liquor without license. The arrests were made on information filed by H. P. Bardshar, internal revenue collector here. A hearing of the cases was had this morning before United States Commissioner Melvin T. Dunlavy. B. Costa, Joe Julianna, Peter Genardo, Joe Villa and Antonio Simonio, five of the accused men, agreed to take out licenses, to pay all costs and penalties and were discharged. The sixth prisoner, Dan Galovich, however refused to compromise and the case was reset for hearing next Monday.

ROOSEVELT ON NEBRASKA
TRAIL OF LAFOLLETTE.

Primaries Are Only Two Days Off and
Political Aspirants are Hust-
ling.

(By Special Leased Wire to New Mexican)
Lincoln, Neb., April 17.—With the primaries but two days ahead, the party following split asunder, and political conditions in a chaotic state, Nebraska, is a state on which one presidential candidate and a half dozen lieutenants of opponents and would-be nominees are playing.

Roosevelt arrived in the state this morning and started his speaking tour intended to counteract the effect of LaFollette's personal campaign of a week ago.

On the Democratic side, the adherents of Clark, Wilson and Harnow are working hard to advance the interests of their candidates. The Ohio governor is receiving the support of United States Senator Hitchcock, but is being opposed by William J. Bryan.

CONDITIONS ON MEXICAN BORDER
ARE NOT YET ALARMING

But New Mexico Will Be Prepared For Any Eventualities
That May Occur In Case of Intervention By the
United States.—Prize Fight Bill Passed.

"I am not inclined to borrow trouble, I am not looking for it and I hope it may never come, I am not seeking any greater responsibilities, but reports and rumors that have come to me, seem to make it necessary to anticipate a little. Suppose you should adjourn from Friday to Monday; suppose the telegraph would flash the news that the United States had intervened in Mexico, suppose there should be serious trouble on the border and our citizens be in danger of losing life and property. My hands would be tied for lack of funds. I am not asking for funds, I am simply stating what I consider to be the situation and the need. I may make a mistake, but I will not make the mistake of spending the money or taking any step unless I shall deem it absolutely necessary." (Applause.)

That is the way Governor McDonald said this forenoon at a meeting of the Ways and Means Committee of the House and the Finance Committee in the Hall of Representatives, stated the situation on the New Mexico border raised by the probability of intervention by the United States in Mexico.

As a result, the joint conference adopted a resolution on motion of Holt, stating that it is the sense of the conference that it would be expedient for the legislature to enact a law carrying an appropriation recommended by Adjutant General Brookes, or some other appropriate sum, to be placed at the disposal of Governor McDonald in case intervention by the United States in Mexico, makes it necessary to expend any part or all of the amount to protect the property and life of New Mexico citizens on the border. The amount needed, as estimated by Adjutant General Brookes is \$10,446.68 and would place in the field for sixty days four officers and thirty enlisted men of the National Guard and two squads of six each of mounted policemen.

It was not a warlike session at all this forenoon. It was unusually sedate and quiet. There was no rip-roaring oratory, merely simple statements and conclusions drawn therefrom. Representative Burg presided. The discussions were informal. Adjutant General Brookes spread out a map showing the 183 miles of boundary line between New Mexico and Mexico that is absolutely unprotected. He said that he saw no danger unless intervention occurred but everything pointed to intervention. The Mexican refugees on the New Mexico side have armed themselves heavily with Winchester and ammunition. In case of intervention they would make for the border and back into Mexico taking along whatever property they could seize. They would insist that the Spanish speaking citizens of New Mexico go with them, whether they wanted to or not, and in case of refusal would not hesitate to kill. It is up to New Mexico to protect its citizens. He paid a high tribute to the loyalty and valor of the Spanish-American citizens of New Mexico saying that there are 400 of them in the New Mexico National Guard and that he would not hesitate to take them into Mexico in case of war. In case of intervention, the United States troops would be withdrawn, would march in columns into Mexico from certain points. In that case, the presence of New Mexico National Guard at the border, would have a quieting effect on the isolated settlers. He estimated that \$10,446.68 would maintain for sixty days four officers and thirty mounted men of the National Guard, allowing \$1.00 a day for the rations of the privates, and also two detachments of six each of mounted policemen. This sum should be at the disposal of the governor to use in case of a sudden emergency. He added that the National Guard should be prepared to go at a moment's notice in case of a sudden call.

Representative Smith of Luna county declared that the settlers along the border in his county and Old Mexico Mexicans would to a man go back to their mother country to take up arms against the United States. Wherever they would come to an isolated settlement or farm they would undoubtedly seize everything they could lay their hands on, especially livestock. They will make it hard for the small farmers and ranchmen. The presence of mounted police and the National Guard would have a deterrent effect. The officers of the counties cannot cope with the situation and the refugees are heavily armed. He said he had employed some of these and he knows that while at present they are friendly to the United States, in case of intervention that would all be changed.

Representative Clancy asked whether these refugees would merely return to their mother country to fight for it, or whether they would become marauders. Smith replied he could not answer but knows that the feeling is intense.

Senator Holt said that it is a delicate situation which must be handled with diplomacy. He for one was not in favor of the State of New Mexico declaring war on the Republic of Mexico, or taking any action that might be construed as an unfriendly or overt act. He too had heard certain vague, indefinite, disquieting rumors of what might be done in certain

eventualities, but after a talk over the long distance telephone with the sheriff of Dona Ana county, one of the most active and efficient peace officers in New Mexico, he was convinced that these rumors are merely idle talk without much substance. He too had heard that the refugees were holding secret "juntas," were arming themselves and would do all the damage they could in case of intervention before stealing back over the border into Mexico and therefore, out of an abundance of caution, there should be a meeting of minds among the legislators so that prompt action could be taken in case of an emergency and that the needed funds are made available so as to secure prompt action in case of intervention. But he believed that this could be done in an hour's time by the legislature and that the Adjutant General would have the National Guard ready to go to the border within 24 hours notice. It would be unwise, however, to take the initiative before there is any real danger.

Representative Moreno, on the other hand, believed that the danger impending had substance to it. In case of intervention something must be done. There are many refugees along the line who would take up arms against the United States. The small settlements need protection and it is certainly the duty of the state to protect its citizens.

Representative Mullens declared that there was law and order as arrayed against irresponsible agitators on both sides of the boundary, and that in Mexico, Americans are to be blamed for fomenting trouble to a large extent. But if we can do this without creating war talk we should prepare for emergencies.

Senator Laughlin would not take the alarmist view. He had just been home to Deming and found everything peaceful and quiet and no disposition anywhere to make trouble. Upon his suggestion, Senator Clark sent to the chairman's table two telegrams, one from Senator Walton to Sheriff J. H. McGrath and the other from McGrath to Walton. They were read as follows:

Santa Fe, N. M., April 17.
Sheriff J. H. McGrath, Silver City, N. M.
In case United States intervenes in

(Continued on Page Four.)

GOOD ROADS
WORKERS ACTIVE

Agreement at Last for Re-
ducing Ditches on Agua
Fria Road

STIPULATION WITH SETTLERS

State Engineer Miller and Com-
missioner Kinsell Are
Busy.

State Engineer Charles D. Miller, in company with County Commissioner George Kinsell spent this afternoon in going over the Agua Fria road which is now being constructed under the supervision of the Good Roads Commission. This road has been delayed for some time owing to the difficulty in getting the ditch matters straightened. The Road Commission has now a stipulation with the settlers that the number of ditches crossing the road may be reduced from twenty seven to seven. The county commissioners, through the efforts of Commissioner Kinsell have undertaken to install proper culverts and bridges along this road. The road commission to grade up the road in between.

Mr. Miller states in regard to other road work now in progress throughout the state as follows:

Eddy County. Additional work on sand road adding two miles in total length now in progress. Co-operation between Eddy County and the Good Roads Commission.

Chaves County. Road across the sands forty-five miles east of Roswell. Large force of men and teams at present employed under the direction of the state in co-operation with county commissioners and good roads commission.

Union County. Investigations and report have been made by the Engineer's office on the road from Clayton to Folsom, portions of which will probably be repaired and built in co-operation with county commissioners of that county and good roads commission.

San Miguel. Convict camps on Villanueva and Scenic Highway up Galinas canon have been combined and are now stationed near Glorieta doing necessary repair and construction on the Santa Fe and Las Vegas road.

Grant County. Road work will be started the end of this week by location and construction of road from Redrock to Silver City. This is done

AID IS ASKED
BY PRESIDENT

As Head of Red Cross Taft
Appeals For Funds For
Flood Sufferers

FIRST WOMAN BUREAU CHIEF

The Bill to End Gambling In
Cotton Futures Is Favorably
Reported.

(By Special Leased Wire to New Mexican)

Washington, D. C., April 17.—

SENATE.

In session 2 p. m.

Secretary Fisher urged before Public Lands Committee legislation creating bureau of National parks.

Los Angeles delegation urged improvement of Los Angeles outer harbor at cost of \$20,000.

HOUSE.

Met at noon.

Considered miscellaneous bills on calendar.

Washington, D. C., April 17.—An appeal on behalf of the Red Cross for funds to aid the flood sufferers in the Mississippi valley was made to the public today by President Taft, who is president of the society. The President says that "conditions are so acute as to require immediate resources far in excess of those now at command."

Lives in Peril of Flood.

New Orleans, La., April 17.—A telegram received here today by Mayor Behrman from John M. Parker at Vicksburg, telling of the desperate condition of the flood sufferers in and near Tallulah, La., says:

"Am informed water rising so fast that Tallulah is in peril. Inhabitants have been moved to higher ground. Have chartered every available skiff and launch."

Revision of Metal Schedule.

Washington, D. C., April 17.—Senator Cummings of Iowa, Progressive Republican at a conference with the Democratic members of the finance committee today submitted his bill for the revision of the metal schedule of the tariff law. It provides for considerable reduction on iron and steel rates, about midway between the present tariff and the House Democratic bill. The Democratic members said they felt an agreement with Mr. Cummings could be reached.

Senator Simmons of North Carolina who will have charge of the metal bill, said the Democrats would insist that some tariff legislation be enacted and he had reason to hope a sufficient number of insurgent Republicans would co-operate with the Democrats to pass the metal, chemical sugar and woolen bills through the Senate.

First Woman Bureau Chief.

Washington, D. C., April 17.—Julia C. Lathrop, of Chicago, an associate of Jane Addams in the work at "Hull House," a member of the Illinois Board of Charity and a graduate and trustee of Vassar College, was today appointed by President Taft as chief of the new Children's bureau in the Department of Commerce and Labor. Miss Lathrop is the first woman to be made a Bureau Chief under the government.

Deaths in Cotton Futures Outlawed.

Washington, D. C., April 17.—Despite opposition by various boards of trade, the House committee on agriculture today voted to make favorable reports on bills designed to end gambling in futures on cotton and grain.

Two measures were reported, one by Representative Beall of Texas (Democrat) dealing with cotton and the other by Representative Lever of South Carolina (Democrat) relating to corn, wheat and oats.

The report on the cotton bill was unanimous. Two members voted against the grain bill and the southern members refrained from voting upon it. The bills, which virtually are alike, would provide that dealers who contract to sell must swear that the commodities sold actually are in existence. Messages relating to deals could not be telegraphed, telephoned or mailed until the affidavit so required was made. Violations of the law would be punishable by imprisonment and heavy fines. The bills have been bitterly opposed by the leading cotton and grain exchanges of the country.

Magdalena Bay Matter.

Washington, D. C., April 17.—President Taft and Senators Root and Lodge decided today that the President's answer to Mr. Lodge's resolution regarding the acquisition of territory by Japan at Magdalena bay, Mexico, would not be sent to the Senate until after the subject could be considered by Secretary Knox. The President will discuss his answer with Mr. Knox as soon as possible. Reports that the conference had to do with the general Mexican situation were denied.

Public Building for Socorro.

Senator Thomas B. Catron has introduced a bill appropriating \$75,000 for the site and construction of a public building at Socorro.

RESULT OF NATIONAL

LEAGUE GAME AT BOSTON.

(By Special Leased Wire to New Mexican)
Boston, Mass., April 17.—Boston 1, 7; 4; New York 4, 7, 1. Brown and Klying; Wilkie and Meyers.

Continued on page eight.

CITIZENS' MASS MEETING FOR TO-
MORROW EVENING AT OLD PALACE

By Raising \$25,000 Santa Fe Will Be Able to Construct
\$140,000 Hotel at Once.—Chamber of Commerce Met
Last Night and Elected A. B. Renehan President.

Santa Fe will probably have a new hotel which will cost not less than \$140,000, \$100,000 of which is to be loaned to the city by eastern capitalists. The citizens of the city will hold a mass meeting tomorrow night to raise the balance. The borrowed money will be secured by a first mortgage on the proposed hotel and grounds. The Chamber of Commerce last evening issued a call for the meeting to be held at 8 o'clock at the Old Palace on the definite assurance from N. Salmon that the \$100,000 would be forthcoming just as soon as the citizens pledged their part of the funds. Mr. Salmon reiterated the need for a first class tourist's hostelry and ended by submitting the plans which the Chamber adopted.

Renehan Chosen President.

When the matter of electing officers for the coming fiscal year was in order the following were chosen on unanimous vote: A. B. Renehan, president; J. W. Norment, first vice president; H. H. Dorman, second vice president; J. S. Harris, secretary; H. S. Kaune, treasurer and Alexander Read, attorney. A vote of thanks was extended to S. G. Cartwright, the retiring president and to the other officers of the organization. The standing committees have not yet been selected, but will be announced at the next regular meeting. In accepting the presidency for the ensuing term Mr. Renehan pledged himself to the progressive program of improvement here outlined by the Chamber and partially consummated.

Valuable Deed Returned.

In a communication from the Farmington Board of Trade a protest was lodged with the Santa Fe commercial organization against the latter's attitude in regard to the dismemberment of the local land office and the establishment of a land office at Farmington. The matter was referred to the president and secretary with authority to act.

In a letter to Congressman H. B. Ferguson read before the Chamber the war department promised the return of a deed to 640 acres of land located near Sunmount given by the

Chamber of Commerce as a site for a military reservation. This deed was given in 1893, but was never recorded.

The Road to Taos Assured.

A letter from B. G. Randall, president of the Taos Valley Bank, stated that Taos county was willing to spend \$2,000 for a road to the borders of the county to connect with the proposed Santa Fe county road. If the state would furnish a like amount, this matter has been laid before the governor and assurance given that the state would furnish its share of funds for the construction of the proposed road. This practically assures the building of a much needed highway in Santa Fe's tributary territory which will enter Taos by way of Tesuque, Santa Cruz, Chamita and Velarde. The matter was referred to a committee, appointed by the chairman, consisting of Judge E. C. Abbott, A. B. Renehan and District Attorney Alexander Read. This committee was also instructed to take up the matter of good roads with San Juan county.

Resolution supporting the bill introduced in the United States Senate by Senator A. B. Fall asking an appropriation of \$3,000,000 for good roads in New Mexico, was adopted by the Chamber by unanimous vote.

Scenic Highway.

Former Governor L. Bradford Prince brought up the matter of the Scenic Highway and urged the taking of immediate steps looking toward the completion of the great New Mexico scenic attraction. He pointed out that the legislature now in session was very favorable to the project and that legislation assuring the completion of the work, now far advanced, could easily be obtained. Together with a first class tourist hotel and such unique attraction the transcontinental stream of tourists could be diverted into Santa Fe, said Mr. Prince. The matter was referred to a committee consisting of Former Governor Prince, R. L. Baca, speaker of the state house of representatives, and Judge E. C. Abbott.

Alexander Read and W. G. Hoover were admitted to membership by unanimous choice.

868 SURVIVE
SEA TRAGEDY

White Star Estimates Total
Titanic Passenger List
of 2200

SEARCHING FOR SHIP'S DEAD

Congress Will Investigate Loss
of Transatlantic Grey-
hound.

(By Special Leased Wire to New Mexican)

The Canadian Carpathia bearing 868 survivors of the sunken White Star Line Titanic was less than 600 miles from New York at noon and word was eagerly awaited that would shed light on the catastrophe of Sunday night, which cost 1,312 lives. Sable Island was in brief communication with the rescue ship for a time this morning but no additional names of survivors were obtained.

Wireless stations along the New England coast were straining to get in communication with the vessel this afternoon and the Scout Cruiser Salem was somewhere off Nantucket for the purpose of relaying ashore through her sister cruiser, the Chester, some connected account of the disaster.

In New York the White Star Line offices received a brief wireless dispatch saying that the Carpathia was 700 miles from the harbor entrance. This should bring her into port either late Thursday night or early Friday morning.

At Halifax the cable ship Mackay-Bennett has been fitted out to go to the scene of the disaster. Coffins, ice and embalming materials were loaded aboard in the hope that many bodies may be picked up near the scene of the wreck.

New York, N. Y., April 17.—The Campdown wireless station at Halifax today sent the Associated Press the following dispatches:

"We are now in communication with Carpathia and in position to announce unofficially that the Titanic struck an enormous iceberg and sunk. Over two thousand lost. 700 survivors, mostly women on Carpathia."

Carpathia Nears New York.
New York, N. Y., April 17.—The White Star Line made public this morning the following unsigned message from the Steamship Carpathia, probably relayed to New York:

"Carpathia east of Ambrose, 506 miles, 11 p. m. Tuesday. All well. By Ambrose is meant Ambrose Channel, the entrance of New York harbor. The lines officials think the Carpathia will arrive here about 9 o'clock tomorrow night."

Survivors Before Congress.
Washington, D. C., April 17.—Survivors of the Titanic disaster will be summoned to Washington to tell Committees or Congress the facts concerning the inability of the steamship officials to save the lives of all the passengers on the liner. Representative Alexander of Missouri, chairman of the House committee on merchant marine and fisheries, announced today an investigation in which the passengers will give chief testimony.

A resolution will be offered in the Senate probably today to direct the Commerce Committee or a Subcommittee to make a thorough probe of the Titanic tragedy and to empower the committee to summon witnesses and take any necessary steps.

Carpathia in Communication.
Boston, Mass., April 17.—Various radiograms received here today showed that several vessels are within wireless range, either directly or by relay, with the steamer Carpathia. The outward bound Boston steamer Franconia was in communication with the Carpathia at 9 a. m. The scout cruiser Chester said she expected to sight the Carpathia at noon. The scout cruiser Salem announced she would stop off Nantucket tonight during the forenoon and relay messages from the Chester to shore stations.

To Search Sea for Dead.
Halifax, April 17.—The cable ship Mackay-Bennett, which has been chartered by the White Star Line to go to the scene of the Titanic disaster was being loaded today preparatory to departure, in the hope that some bodies may be picked up. Coffins are being included in the cargo and several undertakers and embalmers will go along.

The cable ship Minia, which was near the disaster, has arrived here with no survivors. It had been hoped she might have picked up a few stragglers floating on rafts of the wreckage.

In addition to 100 coffins, the Mackay-Bennett is taking 100 tons of ice. The mission of this ship recalls the disaster to the steamer La Bourgogne when a similar vessel was fitted out more to search the sea for dead than living. At that time more than thirty bodies were found floating near the scene of the disaster although the
